SUPPLEMENT TO
REPORT NO.

25X1C

25X1X

1. Attachment A is a diagram of the airfield north of Zatec (Baaz - N51/P 10) which is approximately 4000 feet by 9500 feet in area and has one "beton" runway about 250 feet in width. There are four hangars at this field, two completed and two under construction. The finished hangars are 200 feet long by 100 feet wide by 26 feet high. The unfinished hangars are 250 feet long by 125 feet wide by 50 feet high. There are also two large underground shelters at this field. The garrison consists of approximately 100 men who are billeted in two large wooden barracks at the eastern end of the field.
2. Attachment B is a plan of the airfield at Milovice (051/G 00). Tanks patrol the field at regular intervals.
3. Attachment C is a plan of the airfield at Havlickuv Brod (formerly Nemecky Brod - Deutschbrod - 050/M 64) which is located on a hill and consequently has a slight grade. There are no well defined runways, the field being grass covered. There is one hangar, 240 feet long by 125 feet wide by 35 feet high. The parking place is in front of the hangar and five Siebel planes were parked.

25X1C

25X1B

All planes were painted gray-green. Directly north of the hangar is the main building on top of which a machine gun is mounted. The garrison personnel are billeted in the wooden barracks near the airfield.

Attachments: A. Sketch of airfield at Zatec with legend
B. Sketch of airfield at Milovice with legend
C. Sketch of airfield at Havlickuv Brod with legend
